## Ms Lynne Pretorius

September 11, 2018

Ms Pretorius' professional experience includes a working knowledge of the public sector environment, as well as private sector involvement as a transportation engineering consultant. Her career spans approximately 23 years in the transportation planning/engineering arena.

Lynne obtained her BSc Civil Engineering degree in 1993 from the University of Cape Town, followed by a Masters Degree in Transport Engineering in 2004. She has developed extensive experience over the last 20 years in the field of non-motorised transport planning and implementation, public transport planning including operations and infrastructure design and integrated transportation planning. Her field of interest lies in the integration between land use and transport. She is professionally registered with the Engineering Council of South Africa and is currently Director of Innovative Transport Solutions, a transportation planning and engineering consulting firm in South Africa.

Ms Pretorius is also a member of the South African Institute of Civil Engineers' Transportation Division Committee and served as the President of CESA during 2015-2017.
