

Confirmed Speaker

Dr Gernot Strube

September 10, 2018

A native of Germany, Gernot has worked out of Munich, Cleveland and Hong Kong, advising clients in over 25 countries globally on digital transformations, operational strategy, and performance improvement, particularly in the infrastructure, aerospace, rail, and machinery sectors.

He currently leads the Capital Projects & Infrastructure Practice in Western Europe and is a co-leader of the Operations Practice. His recent work includes a perspective on digitization in the construction industry and the establishment of capability center for the application of 5D BIM technology. Other projects enlist tendering for a mega mall, an airport infrastructure assessment to shape an aircraft portfolio strategy and the turnaround of critical large projects in infrastructure, aerospace and rail. Collaborative leader, Gernot has also supported lean transformations at aerospace, automotive and telecom companies.

Gernot earned a master's degree in aeronautical engineering and a doctorate in mechanical engineering from the University of Technology Munich.
